

Your whole home, one tap away.

Home Screen, Lock Screen, Control Center and Apple Watch — Home Widget turns the screens you already use into HomeKit controls.

Home Widget for HomeKit 1.10.0

English · Key facts

WHAT'S NEW IN 1.10

1. All Your Cameras at a Glance

Open the mosaic from a widget in a single tap, then zoom into any camera.

2. Your Heating, Within Reach

Set your home temperature straight from your widgets.

3. Widgets Redesigned for iOS 26

New clear, tinted and Liquid Glass rendering, with sharper interactions and better Lock Screen panels.

4. Your Cameras in Control Center

Add a Home Widget control that opens the mosaic, or the camera of your choice.

5. A Whole Room, One Gesture

Turn on, turn off, dim or color every light in a room at once.

ABOUT

Home Widget is an independent app developed by Clément Marty under the Vision-Apps name, on the App Store since 2021. It builds customizable HomeKit panels from the accessories, scenes, groups, sensors, cameras and shortcuts already configured in Apple's Home app, for iPhone, iPad and Apple Watch.
